Speaker Bio's

Dan Santoro has over twenty years of experience working in both public and private sector roles. Dan is currently serving as the Director of Herbert, Rowland & Grubic, Inc.'s Land Development Division. Dan has extensive experience in local government planning land use and zoning processes having served in both public positions and as a consultant to public and private sector clients. He is certified through the American Institute of Certified Planners. Dan has served in various volunteer roles throughout the region and state including as a past member of the Butler County Planning Commission, Southwestern Pennsylvania Commission and the Pennsylvania Chapter of the American Planning Association. He holds a Master of Public Management from Carnegie Mellon University and a Bachelor's Degree in Regional Planning from Indiana University of Pennsylvania.

John Trant, Jr. has over fifteen years of experience working in both the public and private sectors with state, county, and local governments. John is a Regional Manager of Municipal Services at Herbert, Rowland & Grubic, Inc. (HRG). He oversees municipal services and planning initiatives; including transportation planning, land use management, zoning, strategic planning, interim municipal management and comprehensive community plans. He is a Certified Community Planner through the American Institute of Certified Planners. As an active member of the local community, he serves on the Executive Board of the Butler County Chamber of Commerce and is the Chairman of the Sustainable Pittsburgh Board of Directors. Before his law degree, John earned undergraduate degrees in Landscape Architecture and Geography.

Doug Weikel is a professional engineer with over twenty years of engineers experience working in the water resources and construction sectors. Doug is the Director of both Herbert, Rowland & Grubic, Inc.'s Civil and Geomatics Groups where he is responsible for the technical aspects of all of HRG's municipal services, survey, GIS and construction. Doug serves as the appointed engineer for several municipalities as well as serving as chairman of the Spring Township Water Authority, Walker Water Association, and Spring Creek Water Monitoring Committee. He is also active on statewide organizations such as Pennsylvania Water Environment Association where is chair of the stormwater committee and has won the Golden Raindrop Award. Doug earned his Civil Engineering degree from Penn State University as well as a degree in physics from East Stroudsburg University.
