

# MS4 MOCK INSPECTION TRAINING

This training has been designed to provide municipalities with practical information for meeting Municipal Separate Storm Sewer System (MS4) requirements, with a specific focus on preparing for inspections. The training will include:

- ◆ In-class training on documentation requirements and common paperwork issues observed by the PA DEP, and
- ◆ Tour of public works facility to highlight best management practices, specific practices that are reviewed during inspections, and common issues encountered by the PA DEP.

Training will be conducted by Pennsylvania Department of Environmental Protection (PA DEP).

Event is sponsored by SPC Water Resource Center (WRC).

Special thanks to North Fayette for use of their facility!

Please visit <http://spcwater.org/workshop.shtml> for information about additional free upcoming workshops on Stormwater and MS4!
